NEW AEDS

All Powerheart AEDs are:

Easy-to-Use

- * Opening the AED lid activates the AED.
- * RescueCoach™ user-paced prompts guide users through a rescue.
- * Text prompts provide visual help in noisy and chaotic environments.

Advanced Technology

- * Delivers customized post-CPR shock in 10 seconds for effective therapy.

Rugged and Reliable

- * Meets rigorous military standards for shock and vibration testing.
- * Rescue Ready® technology self-checks all main AED components daily. The highly visible indicator assures responders that the AED works.
- * AED partially charges the high-voltage electronics weekly, and fully charges them monthly.
- * Medical-grade battery with a 4-year full operational guarantee from date of installation.

G3 Plus AED

G5 AED

EXCLUSIVE TO THE POWERHEART G5

As the first brand new model of AED released in the US market in nearly 10 years, it's the only device available that has the ability to:

- * Switch back and forth to Spanish/English during a rescue.
- * Allow quick transfer and review of data via USB.
- * Give LIVE feedback during CPR on ALL three pillars of AHA 2015 guidelines: Depth, Rate and Recoil.

* BATTERIES *

THE POWER TO HELP SAVE LIVES

Powerheart G5 AED

The **Powerheart G5 AED** is loaded with capabilities to allow professional and lay responders to give a patient their best chance at surviving a sudden cardiac arrest event. It's easy, intuitive operation and user-paced prompts enable first-time rescuers to act quickly and confidently to a sudden cardiac arrest emergency. It comes in fully-automatic or semi-automatic versions. The package includes pads and case.

* DEFIBRILLATOR PADS *

G5 Adult ICPR Feedback Electrodes
0511-0027

G5 Adult Intellisense Electrodes (no CPR feedback)
0511-0023

G5 Adult Intellisense Electrodes (no CPR feedback)

AED Pro

Designed with advanced capabilities, the **ZOLL AED Pro** supports **Basic Life Support** as well as **Advanced Life Support** professionals. This advanced AED features a high-resolution LCD display that allows responders to visualize a patient's ECG while utilizing a 3-lead monitoring cable.

AED Plus

The **AED Plus®** is the only AED with **Real CPR Help®**, real-time CPR feedback to help rescuers save a life. Only half of all sudden cardiac arrest victims will need a shock, while 100% will need high-quality CPR. **Real CPR Help®** guides you every step of the way, telling you—and showing you—whether you need to “Push Harder” or whether you’re providing “Good Compressions.”

HeartStart OnSite Defibrillator

Using the **HeartStart OnSite Defibrillator** is simple. Pulling the green handle powers-up the defibrillator and activates voice instructions. These instructions are paced to your actions, to help guide you through the entire process, from placing pads on the patient to delivering a defibrillation shock. **HeartStart OnSite** determines if a shock is needed, based on its automated assessment of the victim's heart rhythm.

HeartSine Samaritan Line:

- * Highest level of protection from dust and water ingress in the industry (IP56).
- * Integrated battery and electrode for one-change maintenance.
- * Compact, portable and lightweight—2.4 lbs.

LIFEPAK CR PLUS FEATURES

Simple-to-use — Simple two-step operation with the same advanced technology trusted by emergency medical professionals.

Simple-to-maintain — Synchronized CHARGE-PAK™ battery charger and electrode replacement cycle for affordable, maintenance program efficiency.

HeartStart OnSite Defibrillator

The original **Defibtech AED** includes all mission critical features necessary to provide the most advanced treatment for Sudden Cardiac Arrest. Simple, clear and straightforward: there are only two buttons on the unit, a green button to turn the unit on and a red one to shock the patient, if needed. **The Lifeline AED is simple and intuitive.**

The **Defibtech VIEW** has taken easy-to-use to a whole new level. Other AEDs tell you what to do in an emergency. The **Lifeline VIEW** is the first and only one that shows you how with video in full-motion color. With award-winning design, durability and easy maintenance—backed by the Defibtech commitment to innovation and excellence—we can guarantee you've never seen an AED like this before.

RECERTIFIED AEDS

WHAT HAPPENS DURING CARDIO PARTNERS' AED RECERTIFICATION PROCESS?

At **Cardio Partners**, we know what a difference having an **Automated External Defibrillator** on-site when you need it can make. We also know that sometimes the cost of a new AED can be out of some shoppers' price range. That's why we offer recertified AEDs that have been carefully refurbished to exacting standards and put through a rigorous seven-point series of testing.

We call it Order, Open, Save Lives and give you this service for free! This means that all of our AEDs have the batteries and pads already installed, and they are fitted into the proper carrying case (if so equipped), so that when you open up the shipping box, it's ready to be used right then.

AED 7-POINT INSPECTION

STORAGE

Our AED wall storage cabinets come in various sizes to fit your facility's needs. Cabinets are available as surface mounts (most common), semi-recessed and fully-recessed. Add an alarm, an alarm with strobe, or no alarm at all. The choice is yours. We also have Stainless Steel wall cabinets available. Call PSTS for assistance with special cabinet orders!
